DIVIDENDS...
Sept. 29. J. Tyson, Liverpool, tallow-chandler. Oct. 5. W. Bacon, Sheffield, &c. &c.

THE BENEFIT OF MRS. PARKER...
ASTLEY'S, WESTMINSTER-BRIDGE.
Mrs. PARKER most respectfully informs her Friends and the Public, that her BENEFIT is fixed for Monday next, Sept. 12, on which Evening will be expressly brought forward a variety of NEW PERFORMANCES.

LONDON, WEDNESDAY, SEPTEMBER 7. 1833.
We have received Hamburg and Altona Papers to the 24th ult. and Dutch of a later date.

The military movements on the Continent become daily more frequent, and their objects less disguised. Three camps are ordered to be formed in Bavaria; and it is obvious, from the points where they are to be established, that they are intended against Austria.

There is not the slightest allusion in these Papers to the important events which have occurred on the other side of the Pyrenees, or to the escape of the Spanish troops from the Island of Fuhen.

Advices, we understand, have been received from the province of Discay to the 29th ult. The French at that time continued in possession of Bilbao.

According to accounts lately received in Holland from France, BUONAPARTE is not disposed to abandon his design of establishing his brother on the Throne of Spain.

The Barbadoes papers to the 19th ult. received yesterday, contain an account of an unsuccessful attempt to obtain possession of the island of St. Martin.

An order is given for the immediate embarkation of several regiments of heavy as well as light cavalry. Among the first go the Oxford Blues, the Queen's Bays, the 10th, 13th, 14th, and 15th Dragoons.

According to accounts from Barbadoes, of the 24th of July, brought by the Tiger, which is arrived at Liverpool, his Majesty's ship Ramilies intended to leave Tortola, on or before the 30th July, with the trade for Great Britain, &c.

Constantinople, a revolution has taken place, the consequence of which the Nephew of Selim III. has been raised to the throne. We expect the official confirmation and the details of this event.

On the 20th inst. Count Holck passed through this city, on his way from Copenhagen to Paris. He left Copenhagen on the 11th.

This morning thirty waggons came in here with tents from the arsenal at Munich, and more are expected. The troops lately ordered to the Tyrol are counter-marching thence, to form the pleasure-camps.

On the 12th, two considerable convoys of ammunition, with cannon, and a detachment of artillerymen, set out from Munich for Kufstein and the Castle of Oberhaus, near Passau.

A numerous levy is making in every part of Bavaria, to complete the deficiency of the different regiments, and to augment the depôts.

The march of troops through this place continues without intermission. A convoy of artillery which came in yesterday, continued their march this morning towards Wezel.

The Minister Count Von Bose went yesterday to Piltitz, where he had an audience of His Majesty. The Generals on the spot were assembled in a Council of War; and this day orders have been issued for a considerable part of our troops to hold themselves in readiness to march.

The exalted Monarch of France has graciously granted some relief to the Marquisate of Brandenburg, for the greater part of Victor's corps have already begun their march from this country.

The Prussian State paper has risen considerably. The Berlin bank notes, which fell to 34, are now at 64.

On the 17th inst. at noon, a discharge of artillery announced the arrival of his Excellency Marshal Soult. The principal Civil and Military Officers, and the most respectable persons of the other ranks of the inhabitants, immediately waited on his Excellency, to assure him of the high esteem which they entertain for him.

A French and a Spanish Courier have passed through this city, on their way from Burgos to Constantinople, with dispatches relative to the recent events in Spain.

The preparations for the ensuing Diet are already completed. Their Imperial Majesties will, during the Session, reside at the Palace of Prince Grassackow.

On Monday next the Persian Ambassador Extraordinary will be admitted to his first audience of his Majesty the Emperor and King, at the Palace of the Thaurkieran.

The report is confirmed of the Servians having captured twenty-four richly laden vessels, which the Turkish merchants were sending from Semlin to Orsova.

Twenty thousand bales of cotton lately arrived at Orsova from Semlin.

The intelligence of a battle having taken place on the 14th inst. at Nissa, is fully confirmed. It was in consequence of this battle that, on the 16th and 17th, orders were issued for all the Servians, without exception, to take up arms.

Letters from Albania state, that in the course of last month very serious disturbances broke out between the Albanians and Macedonians, during which was exhibited the horrid spectacle of a son fighting against his father.

The Wirtemberg troops are said to be assembling at Ellwangen.

The chief topics, however, upon which the Commissioners have bestowed their attention under this head, are, the confused state of Regimental Accounts, the complicated mode in which they are kept, and the discussion of various modes proposed of simplifying them.

The next division of the Report is included under the head of "Army Agency;" and as there is, perhaps, no subject connected with our military establishment, upon which so many suspicions of fraud, peculation, and collusion, are abroad, as upon this, we shall be less sparing of our extracts from the Report.

He is, says Mr. Lewis, the ordinary channel of communication between the regiment and the public departments, and is resorted to not only for providing and forwarding of arms, clothing, and other regimental supplies, but also in the business, public or private, of the individual Officers.

Upon this subject of Army Agency it seems to be universally allowed, that it is a most expensive concern to the country, and likewise attended with great insecurity to the public money; but some Gentlemen have thought, among whom is Mr. WINDHAM, that any change, particularly if made in the time of war, might be attended with such difficulties, and possibly inconveniences, that it would be more wise not to attempt it at least for the present.

"But," say the Commissioners, "the heavy expense attending the regimental agency on its present footing (which we collect from the estimates for 1833, will amount to about 80,000*l.* including the regiments in the East Indies) and the supposed-risk to the public by the issue to the agents of six or seven millions per annum, by monthly payments in advance, previously to its application to the public service, have naturally again attracted the attention of the Public and the Public Boards, and have induced the re-consideration, either of entirely discontinuing individual Army Agency, or of separating that part of the agency duties which are connected with the receipt and distribution of the public money from the other part of the business transacted by him; and we have therefore thought it our duty to enter on the consideration of this subject."

The following is an singular statement of account for the 17th, 18th, and 19th inst. of the 14th regiment of Foot for 1795, which was casually selected from the rest, we have given in the Appendix; by reference to which it will be seen, that the total amount for subsistence, allowances, contingencies, recruiting, clothing, arrears, and agency, as charged by the agent, was 21,847*l.* 1*s.* 4*d.* The number of items of correction in computations, double charges, or other mis-statements, are two hundred and thirty-six; the total sum disallowed is 9057*l.* 16*s.* 3*d.*; and the augmentation of charge is 345*l.* 18*s.* 6*d.*; producing a total of 20,917*l.* 7*s.* 6*d.* being 162*l.* 17*s.* 11*d.* less than the original charge of the agent.
